

Directions: We want to make sure that we are placing our efforts in the areas that will truly make a difference in forming partnership. At the beginning of the school year take an assessment of what parents are looking to receive from the school. This information is a great starting ground for making available to your parent community the resources they need in order to actively participate in their child's education and feel that the school is a shared place. **Make sure that the questions you ask are ones that the school is ready and willing to address.**

How can we help you with...

Learning at Home
